

# UNDERGRADUATE CALCULATION COMPETENCY

---

- All clinical nursing courses (NURS 3021, 3051, 3056, 4013, 4021, 4026, 4032) will have a "Calculation Competency" Exam.
- The quiz will be 10-20 questions (teacher discretion).
- This calculation exam will be included in examination scores for the courses.
- The student must achieve a 100% on the exam in order to attend the clinical experience.
- The first score achieved will be included in examination scores for the course.
- The student will have two (2) additional attempts after the first try to achieve the 100%.
- The three (3) attempts to achieve the 100% must be completed by the first day of clinical.
- Following three (3) attempts, students who do not achieve a 100% on the calculation Competency Exam will not be able to attend clinical.
- This inability to attend clinical will result in course and clinical failure.
- Achievement of the 100% on the Calculation Competency Exam will be listed on the course syllabus as a prerequisite to attendance at clinical. It is a prerequisite clinical competency.
  
- Foundations of Nursing Practice (NURS2115) "Calculation Competency" exam requirements will be specific to the course and stated in the course syllabus.

Faculty Approved: 5/2007  
Revised 2/2011,  
Revised: 2/2014
