Dragonfly Forest is a specialty camp program operated by Camp Speers YMCA. Speers provides overnight, day, and specialty camping all summer long on our 1,100 acre property in the beautiful Pocono Mountains. Please visit our website or give us a call for information on any of our many camp options!

Dragonfly Forest
A Specialty Camp of Camp Speers YMCA

Dragonfly is your place to soar!

The Dragonfly Forest specialty camp is a traditional overnight program for kids with Autism, 22q, Asthma, Sickle Cell Anemia, and other developmental disabilities. We aim to make camp a reality for as many families as possible. By partnering with parents and experts in the medical field, we can provide accommodations for our campers that allow them to be successful at camp. Dragonfly Forest aims to provide a culture of inclusion while fostering confidence and independence in each of our campers. Our campers participate in a variety of activities such as archery, nature hikes, swimming, canoeing, tie-dying, rock climbing, arts and crafts, and campfires! Activities are tailored to each camper's needs.
